Property Details

Unique Developement Opportunity!!!

At the height of Gouverneur, this 3 villa estate is a rare opportunity. Sitting on close to an acre and half of land, the possibilities for this special property are endless.

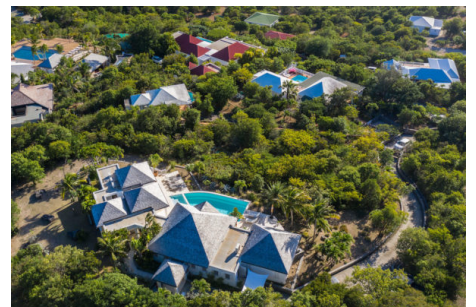

Off the main road heading down to Gouverneur Beach, you enter the long gracious driveway. After the gate, you reach villa Roth. A nice cosy 3 bedroom villa with stunning sunsets and massive garden, it offers the ultimate in privacy. On a lower lot closer to the road is a classic St Barth style multi-bungalow villa. The main house is made up of one building with a small bedroom and full bath, the kitchen and spacious living room. The second bungalow houses 2 bedrooms with ensuite. Behind the villa is an independent 1 bedroom bungalow with its own kitchen and living room.

The properties can be combined for a massive estate or sold separately for two individual properties.

The existing villas can be updated and expanded upon or the whole thing can be developed into an impressive estate.

Bring your architect and your dreams.
