Independent studio To renovate

Property Details

3 bedroom / 2 bath home plus independent studio

This 3 bedroom 2 bath home plus independent studio is a must see. The home does need a renovation but it is rare to find this size property at this price. The villa is located in St Jean i a calm residence with swimming pool. The villa can be fixed up and put into either the year round or seasonal rental programs.

On the ground level, there is a small studio apartment in good condition with its own private terrace. Upstairs you will find the main house with that does need renovation but has a small garden and space for a hot tub. Either use yourself or rent both units out. The possibilities and endless.

Just a 2 minutes walk to St Jean beach, shops, and world class restaurants, this property won't be on the market long.
